On June 2, I gave you certain information regarding Chemosol cigarettes. These data were taken from the table entitled "Analytical Test of Control and Test Cigarettes - Chemosol Treated Cigarettes" enclosed herein.

I had assumed that the cigarettes had been smoked to a 30-mm butt but, as you will note from Mr. Cundiff's letter of June 9, the cigarettes had been smoked to a 23-mm butt.

The data obtained for the 30-mm butt are given in Bob's letter.
